

Int. Appl. No. : PCT/EP03/00035
Int. Filing Date : January 3, 2003

REMARKS

The English translation of the Specification has been amended to comply with the US PTO requirements; to add claim to priority and an Abstract. Additionally, the list of numerals has been amended to include the elements presented in the drawings as filed, but omitted in the description. Claims 1-25 have been amended to comply with the US PTO requirements and to remove improper multiple dependencies. New Claims 26-32 have been added. Support for the new claims can be found in claims 7, 8, 14 and 15 as originally filed. Therefore, no new matter has been introduced with these amendments.

Respectfully submitted,

ACCESSORY FOR IMPLANTATION OF A HIP-JOINT ENDOPROSTHESIS, AND METHOD FOR MANIPULATING IT

Abstract of the Disclosure

Accessory for implantation of a hip-joint endoprosthesis, with a manipulation cup, a manipulation joint head with means for orienting the manipulation cup in the acetabulum , and with a device to represent the correctly oriented position of the manipulation cup such that by means of this device a bone-milling cutter and an impact instrument can then oriented appropriately for placement of the prosthesis cup.
